

## Rain Bird® ESP-LX Modular Controllers

One Controller. Any Installation.

## Flexible

Perfect for residential sites or add four- or eight-station modules—without powering down—and tap into advanced programming features for commercial installations.

## Reliable

Designed to virtually eliminate callbacks with power outage protection and robust circuitry that withstands surges.

## Easy to Use

Proven technology, industry-leading Extra Simple Programming and large display to make programming a snap.

### Flexible Programming Options Include:

- Cycle+Soak™
- Programmable Valve Delay
- Sensor Override by Station
- Master Valve by Station
- Calendar Day Off
- Total Program and Valve Run Times

### Contractor Default™ (Backup Program)

with restore timer lets you save a customized default program that can be recalled automatically up to 90 days later. This allows a temporary schedule for new seed or a fast fix if someone accidentally changes the settings.

### Seasonal Adjustment by Program or Month

enables automatic cutbacks in water amounts during cool weather or increases during hot weather.

### Four Programs Slide Switch

allows for easy program selection and reduces programming errors.

### Large Display and Extra Simple Programming

with self-prompting display in multiple languages makes programming fast and easy; Program Review lets you easily confirm program information.

### Enhanced Diagnostic Feedback™

with externally visible light and message on the display alerts users of conditions that may prevent an irrigation schedule from running; *RASTER™ Wiring Test* quickly diagnoses field wiring and solenoid problems.

# Install Confidence.<sup>®</sup>

## Install Rain Bird<sup>®</sup> ESP-LX Modular Controllers.

### Removeable Battery-Programmable Panel

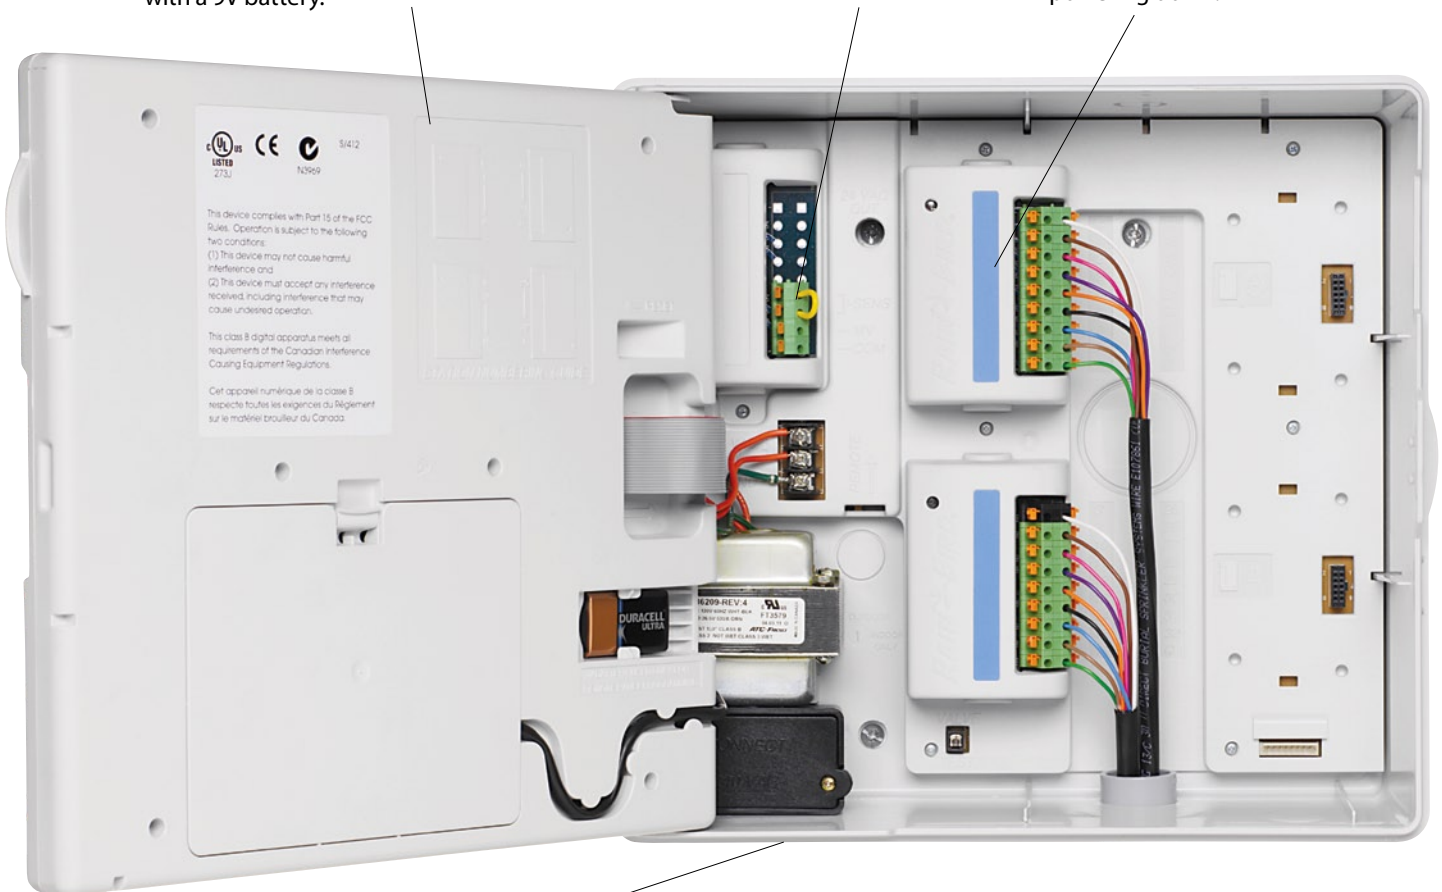

allows for convenient programming prior to installation with a 9V battery.

### Dedicated Sensor Terminal with 24 VAC Power Connection

enables users to easily connect a sensor for maximum water efficiency.

### Eight-Station Base Model

can be expanded up to 32 stations with hot-swappable modules in four- or eight-station increments without powering down.

### Heavy-Duty Locking Cabinet

with an internal junction box is spacious for a clean, professional-looking installation.

### Program Protection

maintains irrigation schedule in non-volatile memory for 100 years and the time/date with a lithium battery for ten years during a power outage.

### Compatible

with the Rain Bird IQ<sup>™</sup> Central Control System.

## Install Confidence.<sup>®</sup> Install Rain Bird<sup>®</sup> ESP-LX Modular Controllers.

The ESP-LX Modular takes the headache out of matching the controller to the installation. It's perfect for the most straightforward residential or commercial installation. This controller improves customer satisfaction because it is designed to virtually eliminate callbacks. Specifiers and contractors know they can trust Rain Bird's proven technology, industry-leading Extra Simple Programming and large display to make programming a snap.

Install it, set the program and walk away with confidence. No other controller matches the ESP-LX Modular for flexibility, reliability and ease of use.
